

ACTIVITIES REPORT DECEMBER QUARTER 2015

GTI board continues to exhaust all avenues in locating a suitable opportunity that would advance the company and all shareholders interests.

Currently a number of opportunities are under review and the board is confident of a successful outcome.

During the quarter on advice from the geological team Exploration Licences E08/ 2099, 2225, 2632 and 2664 were sold to a private investor for \$75,000.

New acquisition of E77/2199 was concluded for \$20,000.

The geological team have identified further gold exploration tenements of interest which are expected to be acquired during the March 2016 quarter.

Shareholders will continue to be fully informed of progress on developments, as they advance past the preliminary stage.

The board continues to investigate alternative funding opportunities to provide ongoing working capital to the Company, including potential capital raisings however no decision has been made on a raising at this stage. Other funding alternatives include short term unsecured borrowings and joint venture opportunities.

In the interim short term funding requirements as demonstrated during the 2015 calendar year are being satisfied by small placements, asset sales and unsecured loans from directors on an as required basis. The Company is of the belief that it will have sufficient working capital and financial support to fund ongoing activities.

Murray McDonald
Executive Chairman
